

ATWEC Technologies Achieves Compliance Standard Company Attains "Current Information" Tier on OTC Markets

Memphis, TN, November 16, 2011 (MARKETWIRE via COMTEX) – ATWEC Technologies, Inc. (OTC Markets: ATWT), a US-based child safety company, today announced that it has achieved the "OTC Pink - Current Information" tier with the OTC Markets, thereby making adequate current information available to the public markets.

The Company's Board of Directors has worked diligently with its accountants and other consultants to compile and present the Company's financial and other disclosure reports since 2009. The Company posted its latest 3rd Quarter interim financial reports yesterday, in order to keep pace with current disclosure requirements.

Shareholders and other investors can find this disclosure posted on the OTC Markets website, as well as the Company's website home page, www.atwec.com.

The Company anticipates that this increased level of disclosure will be welcomed by shareholders, investors, and regulators alike. According to OTC Markets financial data, securities of 'Pink Sheet' companies that provided current disclosure to the public markets comprised over 80% of the entire dollar volume traded on their exchange.

Alex T. Wiley, President & CEO of ATWEC Technologies, stated, "While the Company has focused its efforts on increasing its sales and earnings in 2011, it is apparent that becoming 'transparent' and providing the public with full disclosure on the state of our business will be crucial to our ongoing success. With the completion of our Kiddie Voice™ and Kiddie Alert™ lines of safety products, our concentrated efforts to penetrate Florida and Louisiana are beginning to pay off, with increased sales and strong awareness heading into next year."

Wiley continued, "While being public can be time-consuming and extremely costly, our Board is aware that additional funding via the public markets will springboard ATWEC immediately. We feel that ATWEC is positioned for substantial revenue growth in 2012, and providing current adequate information will only help to increase the value of the stock and hopefully attract new investors."

Safe Harbor Statement

This release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. "Forward-looking statements" describe future expectations, plans, results, or strategies and are generally preceded by words such as "may", "future", "plan" or "planned", "will" or "should", "expected," "anticipates", "draft", "eventually" or "projected".

You are cautioned that such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those projected in the forward-looking statements, including the risks that actual results may differ materially from those projected in the forward-looking statements as a result of various factors, and other risks identified in the Company's disclosure information.
