

ATWEC Technologies Completes Corporate Restructuring

Recapitalization and Reverse Stock Split Allow Company to Raise Capital in 2013

Memphis, TN, June 24, 2013 (PR Newswire) – **ATWEC Technologies, Inc.** (OTC Pinksheets: ATWT), a leader in the child safety industry, today announced that it has completed a significant corporate restructuring, thereby allowing the Company to have easier access to investment capital in 2013.

On February 19, 2013, the Company's Board of Directors unanimously voted to initiate a 1000 to 1 reverse split of its outstanding common shares, while simultaneously reducing its authorized common shares to 500,000,000 shares.

ATWEC, "Around the World Educating Children", has increased its efforts to promote safety for children being transported to school. The Company's Kiddie Voice™ system is unique and patented, and provides a total child safety solution for delivery vehicles. The Company is seeking investment capital in order to expand its sales and marketing, for product inventory, for new product development, and for mergers and acquisitions in 2013.

The Company completed all required filings for the restructuring in the state of Nevada on February 26, including its Certificate of Amendment. The Company received its new corporate CUSIP number on March 14, and received final approval and authorization of the reverse split from FINRA on April 10. The new listing appeared on the market open on April 11.

The Company's issued and outstanding common shares were actually reversed back on June 18, with the Depository Trust Company approving the company and "swinging" the issue. All shareholders

should receive a letter of transmittal from the Company via US mail, with instructions and contact information for receiving their new share certificates.

Shareholders and other investors can find information about the restructure and recapitalization on the OTC Markets website www.otcmarkets.com and on the Company's website home page, www.atwec.com.
