Mr. Howard Ross and Whiz Kids are taking the lead by installing these soon to be mandated devices in their vehicles. “We at Whiz Kid are safety conscious and want to continue offering the ultimate in child care safety,” said Mr. Howard Ross, President/CEO. Several other centers are also having KiddieVoice systems installed. Some of the centers are: Academy For Child Enrichment, Noah’s Ark Academy, Small World Preschool, Mirasol School, Inc., and ABC Montessori.

Senator Maria L. Sachs last week released press on her legislation passing unanimously through Children, Families and Elder Affairs and transportation committees. Senator Sachs is proposing legislation to mandate installing safety systems on all daycare and school transportation vehicles.

Mr. Steven Block of Block Insurance Agency will offer credits/discounts to the auto liability policies for child care centers that have KiddieVoice systems installed. He represents a major carrier that insures child care centers in the state of Florida.

“Our goal with the KiddieVoice® and Kiddie Alert™ Systems is to save lives,” says Alex T. Wiley, President of ATWEC, Inc. “Our research shows that people responds better to a human voice as opposed to sensory sounds.”

ATWEC will also be certifying several groups to install this technology within the Broward, Dade, Orange, Palm Beach and Putnam Counties. “We want to make Kiddie Voice© available and affordable for use throughout Florida,” says Wiley. “Given the increase in the number of accidents we continue to see, if we can save just one child’s life, our efforts will be well worth it.”
